Pure gas devices

Wall-mount pure gas take-off workstation

Product description

Wall mounting take-off workstation, suitable for connection of a user to a pure gas distribution system used in a laboratory. The device's body is made of CW614N chemically nickel-plated brass. The inlet is fitted with an $\varnothing 8$ mm weld-on pipe connection, the outlet is fitted with an $\varnothing 10$ mm hose connection. Adjustment is by means of a needle valve with NBR seal. A helium leak test at 10⁻⁴ mbar l/s can be carried out at the customer's request.

Normatives

UNI EN ISO 9001:2008

Components

- Body made of CW614N chemically nickel-plated brass.
- Chemically nickel-plated aluminum outlet connector.
- Anodized aluminum needle valve, colored according to EN 13792 standards.
- Aluminum plate with four screw holes suitable for wall mounting.
